Information Competency. Kathy O'Connor, Santa Barbara City College, Area C

Therefore be it resolved that the Academic Senate for California Community Colleges table the paper on "Information Competency" until the Spring 2001 Plenary Session to allow further discussion and input from local senates about the paper and its far-reaching recommendations, particularly those on page 11, and Be it further resolved that the Academic Senate for California Community Colleges direct the Executive Committee to hold regional meetings to discuss the impacts of the proposal and to share good practices, particularly inviting curriculum chairs, and Be it further resolved that the Academic Senate for California Community Colleges request that a grant from the Fund for Student Success be directed to support these regional meetings, and Be it finally resolved that the Academic Senate for California Community Colleges send the "Information Competency" paper to curriculum chairs and other interested parties so that it can be a major topic of discussion at the July 2000 Curriculum Institute.

16.02 Library and Learning Resources 1998 Spring

Definition of Information Competency. Richard Rose, Santa Rosa JC, Executive Committee

Whereas resolution 16.2.0 F96 directed the Academic Senate to urge the Chancellor's Office and the Board of Governors to acknowledge that any development of information competency components and/or programs be the primary responsibility of the Academic Senate, and Whereas library faculty see information competency as an important component of learning, and Whereas there is no clear and concise definition of information competency that is currently used in the California Community Colleges, especially as it pertains to curricular development, Therefore be it resolved that the Academic Senate for California Community Colleges adopt the following definition of information competency for California Community Colleges: "Information competency is the ability to find, evaluate, use, and communicate information in all its various formats. It combines aspects of library literacy, research methods, and technological literacy. Information competency includes consideration of the ethical and legal implications of information and requires the application of both critical thinking and communication skills."
